From The Desk of Director

When the company was founded, the main aim was to provide quality services that met with customer's expectation with on time delivery of projects. After 20 years of being associated with the company, I can definitely say that the company has remained true to its motto "Satisfaction Matters." Not only we have expanded into other spheres of construction business but we also have forged a lasting relationship with our customers.

Keeping the future in mind, we intend to stick with the mantra of fulfilling the obligations of our customers on time and with the highest standard of work. We are going to move forward but we are never going to forget the humble beginnings and the guiding principle on which the company has grown.

Mr. Vikash Jaiswal

From The Desk of Managing Director

The industrial construction industry remains a fickle one. Here, if you have to stay afloat in the market you have to perform. When I joined the business in 2002 it was still in a nascent stage although it was a decade since its inception. With a singular aim of the expanding our client base, marketing on war footing was undertaken. This led to increase in our customer base. Now we can boast of having major companies such as Idea, Nokia, Ericsson, Bharti Airtel, Frick India, Kingfisher, Nagarjuna Cement and DRS Group as our clients and this list is constantly growing.

From Industrial construction we have now expanded to school, hospital, public housing, warehouses, civil engineering and infrastructure products. These projects are spread all over India, showing how much we have grown over the years. We are now not only a well-known brand in the construction market but are respected by our peers also....

With each passing year if there is one thing I am sure of, it is that of the enormous strides the company has taken and will keep taking in the field of infrastructure construction.

Mr. Arshad K.

KEY PERSONS

Mr. Sushil Kumar Sharma (Sr. Business Development Manager)

He is an accomplished Mechanical Engineer Having B.E (Mechanical) with more than 25 years experience in the fields of projects management. Having worked with prestigious organization in India. He is instrumental in furtherance organizational goals of sustainable business development aiming at continued and consistent growth.

Mr. Mukhtyar (Business Development Manager)

Manages civil project management & leadership, procurement, techno-commercial operations, vender management and design management, astute leader with a flair for adoption modern project execution methodologies and systems in compliance with set quality standards. Monitoring and resources balancing skills and ability to handle multiple function in high pressure environments with tight deadlines

ABOUT US

ATOZ Infra Projects is one of the leading Consultancy and Construction Company based out of Bhiwadi with its branch office in Delhi, having operations all over India. Founded in the year 1995 and established as a company in 2004, company has flourished and grown over the years providing unbeatable quality standards and timely delivery, employing over 950 people across various spectrums of the business. ATOZ Group enwrapped in industrial, commercial and residential sector, has been delivering output more than client's expectations with their timely delivery and quality standards. With the growing demand of industrial construction and warehousing requirement because of the high consumption demand, we need faster delivery with a full stop solution under one roof, because ATOZ Group is able to fill that void, we have a growing customer base without losing the ones who are with us from the time of inception. Starting from scratch of having only 1 customer, today we have more than 200+ satisfied customer. Because of our ethics, work culture, transparency and unbeatable services, 60% of the business is being derived from the word of mouth publicity. With the vision of anticipating our services across the globe, we also aim to expand ourselves to other horizons of the industry, continuing to provide better solutions at unbeatable prices.

MISSION

ATOZ Infra is on a mission to provide excellent services and product to enable customer get value for each penny. Emphasis is on creating a platform where we understand customer's requirement better than them and our solutions provided are best possible. ATOZ Infra is on a mission to blend exuberance of youth with maturity of experience to give perfect services.

Vision

We envision ourselves to be a leader in designing and construction of high tolerance and impact free buildings, satisfying customers with efficient & innovative design that are built with the latest technology in construction. ATOZ Infra is committed to create a brand in industry where it is considered synonyms of ethics, quality and excellence in performance. ATOZ Infra will bring innovation in designs and products to improve the performance in the construction industry.

Pre Engineered Buildings

India is a land of opportunities and industrial development. Pre-engineered building has risen in market share due to various reasons such as speed, economy and quality.

Even after so many years of pre-engineered buildings in India, there is still a gap in a perfect blend of economy, quality, speed and ethics. ATOZ Infra-Projects wishes to create their own mark in rising to a level of expectancy of market. They acquire infrastructure and experienced man power to fulfill their dream of making a mark into all types of industrial construction.

ATOZ knows that to reach perfection they should have the best man power and best infrastructure available in any PEB company.

To reach their target of achieving both they have their associations with the most leading brands of PEB in India, to provide the full stop solution in any part of the country

Manufacturing Unit

FRAMING

ATOZ Infra

Pre- Engineering buildings are designed & Constructed in variety of Frames to meet specific project requirement of client, for maximum utilization of space with excellent strength and highest safety standard. Most commonly used framing system are shown

Mezzanine System

Intermediate mezzanine floors are possible in metal buildings. Mezzanine floors can be provided in complete or partial area in pre-engineered buildings to suit loading requirements for office and storage. Mezzanine floors consists of steel decks, supported by joists framed to the mezzanine beams. Mezzanine main beams normally runs across the width of the building and are located under the main rafters while joists run parallel to the length of the building, the top flange of the joist fit perfectly below the top flange of the mezzanine beam. The economy of the mezzanine floor is affected by the applied load and support column spacing. Multilevel equipment platforms, catwalks, staircases etc. can be accommodated, if complete data is available.

ELEVATION : MEZZANINE CROSS SECTION

Health & Safety

We are dedicated to providing a safe environment for our employees to work in. Adherence to various rules and regulations laid down by the government and going even beyond them so that our employees remain healthy and free from ailments.

Regular health check-ups are organized for the employees. Not only that, all the employees are provided with various protective gears for onsite jobs. These gears such as helmets, masks, safety harness etc, meet the various standards stipulated and regularly examined to check for any wear and tears and are regularly replaced with new gears.

Keeping in line with the vision of Swachh Bharat Abhiyan, we try to maintain the cleanliness of the surroundings of the job site. We also provide eco-friendly sanitation solutions for employees at the worksite.

We also follow the rules and regulations regarding environmental safety. An environmental audit is carried out for most of the sites. Every order of the government, court or NGT in regards to pollution or environmental production is strictly adhered with.
