"THE ROAD TO SUCCESS IS ALWAYS UNDER **CONSTRUCTION**"

Satisfaction Matters

CONSTRUCTION, CONSULTANCY AND BEYOND

Mr. Arshad K.Managing Director

"The industrial construction industry remains a fickle one. Here, if you have to stay afloat in the market you have to perform. When I joined the business in 2005 it was still in a nascent stage although it been 16-18 year. With a singular aim of the expanding our client base, marketing on war footing was undertaken. This led to increase in our customer base. Now we can boast of having major companies such as Idea, Nokia, Ericsson, Bharti Airtel, Frick India, Kingfisher, Nagarjuna Cement DRS Group Berger Paint Red Tape Anzo Control Pragati Coating Malhotra Cable as our clients and this list is constantly growing. From Industrial construction we have now expanded to school, hospital, public housing, warehouses, civil engineering and infrastructure products. These projects are spread all over India, showing how much we have grown over the years. We are now not only a well-known brand in the construction market but are respected by our peers also.... With each passing year if there is one thing I am sure of, it is that of the enormous strides the company has taken and will keep taking in the field of infrastructure construction.

"When the company was founded, the main aim was to provide quality services that met with customer's expectation with on time delivery of projects. After 20 years of being associated with the company, I can definitely say that the company has remained true to its motto "Satisfaction Matters. "Not only we have expanded into other spheres of construction business but we also have forged a lasting relationship with our customers. Keeping the future in mind, we intend to stick with the mantra of fulfilling the obligations of our customers on time and with the highest standard of work. We are going to move forward but we are never going to forget the humble beginnings and the guiding principle on which the company has grown.

Mr. Vikash Jaiswal

Mr. Sushil Kumar Sharma (Sr. Business Development Manager)

He is an accomplished Mechanical Engineer having B.E. (Mechanical) with more than 25 years experience in the fields of projects management. Having worked with prestigious organization in India. He is instrumental in furtherance organizational goals of sustainable business development aiming at continued and consistent growth.

ATOZ Infra Projects in one of the leading Consultancy and Construction Company based out of Bhiwadi with its branch office in Delhi having operations all over India. Founded in the year 1995 and established as a company in 2004, company has flourished and grown over the years providing unbeatable quality standards and timely delivery, employing over 950 people across various spectrums of the business.

ATOZ Infra enwrapped in industrial, commercial and residential sector, has been delivering output more than client's expectations with their timely delivery and quality standards. With the growing demand of industrial construction and warehousing requirement because of the high consumption demand, we need faster delivery with a full stop solution under one roof, because ATOZ Infra is able to fill that void, we have a growing customer base without losing the ones who are with us from the time of inception.

Starting from scratch of having only 1 customer, today we have more that 500 + satisfied customer. Because of our ethics, work culture, transparency and unbeatable services, 60% of the business is being derived from the word of mouth publicity. With the vision of anticipating our services across the globe, we also aim to expand ourselves to other horizons of the Industry, to provide better solutions at unbeatable prices.

MISSION

ATOZ Infra is on a mission to provide excellent services and product to enable customer get value for each penny. Emphasis is on creating a platform where we understand customer's requirement better than them and our solutions provided are best possible. ATOZ Infra is on a mission to blend exuberance of youth with maturity of experience to give perfect services.

We envision ourselves to be a leader in designing and construction of high tolerance and impact free buildings, satisfying customers with efficient & innovative design that are built with the latest technology in construction. ATOZ Infra is committed to create a brand in industry where it is considered synonyms of ethics, quality and excellence in performance. ATOZ Infra will bring innovation in designs and products to improvise the performance in the construction industry.

QUALITY POLICY

Execute project maintaining the highest quality standards systems and safety standards as per global norms. To provide best services and solutions that reduces the long term maintenance cost of the client and to ensure efficient plus timely delivery of the project.

PERSONALIZED TECHNICAL SERVICES TO CUSTOMERS

Knowledge sharing principles and processed for best selection of product and available technology by customer. This include requirement assessment of customer, meeting quality standard of services, evaluation of customer requirement and satisfaction economically.

YOU CAN DEPEND ON US

The combination of vision, Innovation, precision & manpower has made us strong. Our Customer appreciate our solid reliability & proverbial flexibility when it comes down to supplying even the most complicated solutions economically & on schedule.

OUR CONTINUITY

Continuity also demands vision. Vision is the basis for the Endeavour & solutions that are hardly possible otherwise. Our visionary potential can be found in our technical team.

OUR USP'S:

- One of the few companies In India to heavily invest on most Experienced team to handle all your needs.
- Timely delivery, quick service, best quality and unbeatable prices.
- Third party audit of erection.
- One stop solution that saves time, energy and bring more efficiency in work.
- Ethical values in marketing has enabled higher customer retention.
- Highly experienced erection procedure, team and third party certification makes erection hassle free and managed in time lines.

PROJECT EXECUTION METHODOLOGY

SIDEWALKS & CURBS

BOUNDARY WALLS

From Interstate work, to resurfacing local streets and parking areas, to complete site development services for GCs and developers, ATOZ Infraprojects provides high-quality results at competitive prices, backed by decades of proven experience. Our reputation for excellence was built by providing high-quality, cost-effective contracting services to the public and private sectors. For years, the foundation of our success has been striving for complete customer satisfaction in every aspect of our work. We invite you to experience this high level of customer service, starting with a prompt review and competitive bid on your next project

Our extensive range of services includes:

Our extensive range of services includes:

PRE ENGINEERED BUILDING

PEB OR STEEL STRUCTURE - WAREHOUSES

MANUFACTURING UNIT

Pre Engineered Buildings

India is a land of opportunities and industrial development. Pre-engineered building has risen in market share due to various reason such speed, economy and quality. Even after so many years of pre-engineered buildings in India, there is still a gap in a perfect blend of economy, quality, speed and ethics.

ATOZ Infra-Projects wishes to create their own mark inrising to a level of expectancy of market. They acquire infrastructure and experienced man power to fulfil their dream of making a mark into all types of industrial construction.

ATOZ knows that to reach perfection they should have best man power and best infrastructure available in anyPEB company.

To reach their target of achieving both they have their associations with the most leading brands of PEB in India, to provide the full stop solution in any part of the country

MEZZANINE SYSTEM

Intermediate mezzanine floors are possible in metal buildings. Mezzanine floors can be provided in complete or partial area in pre-engi neered buildings to suit loading requirements for office and storage. Mezzanine floors consists of steel decks, supported by joists framed to the mezzanine beams. Mezzanine main beams normally runs across the width of the building and are located under the main rafters while joists run parallel to the length of the building, the top flange of the joist fit

perfectly below the top flange of the mezzanine beam. The economy of the mezzanine floor is affected by the applied load and support column spacing. Multilevel equipment platforms, cat walks, staircases etc. can be accommodated, if complete data is available.

ATOZ Infra Provides Design for Pre-Engineered Building of Crane system like EOT, Monorail, Underhung and Other Device such as convyer. Balarka Scope involves supply of Rafter Bracket and crane runway beam that support the crane system.

Electrical Work

CONSTRUCTION, CONSULTANCY

Our Turnkey Services

- 33 KV, 11 KV Sub-Stations
- Cale Laying In Trench Or In Ground
- Cable Jointing And Termination
- Insulations Testing of Electrical Equipments

HEALTH & SAFETY

We are dedicated to providing a safe environment for our employees to work in. Adherence to various rules and regulations laid down by the government and going even beyond them so that our employees remain healthy and free from ailments.

Regular health check-ups are organized for the employees. Not only that, all the employees are provided with various protective gears for onsite jobs. These gears such as helmets, masks, safety harness etc, meet the various standards stipulated and regularly examined to check for any wear and tears and are regularly replaced with new gears. Keeping in line with the vision of Swachh Baharat Abhiyan, we try to maintain the cleanness of the surroundings of the job site. We also provide eco-friendly sanitation solutions for employees at the work site.

We also follow the rules and regulations regarding environmental safety. An environmental audit is carried out for most of the sites. Every order of the government, court or NGT in regards to pollution or environmental production is strictly adhered with.
